PRO MODEL BOCCACINI

Woodcore sandwich construction
Titanal Layers
Laminated strips of wood
Triax-Glassfiber-Layers
Nano Carbon Base speed 9000
Topsheet in PVC-silk screened from the base
Reverse camber nose and tail
Flex optimized for racing and carving
Inserts: 4x2 and UPM

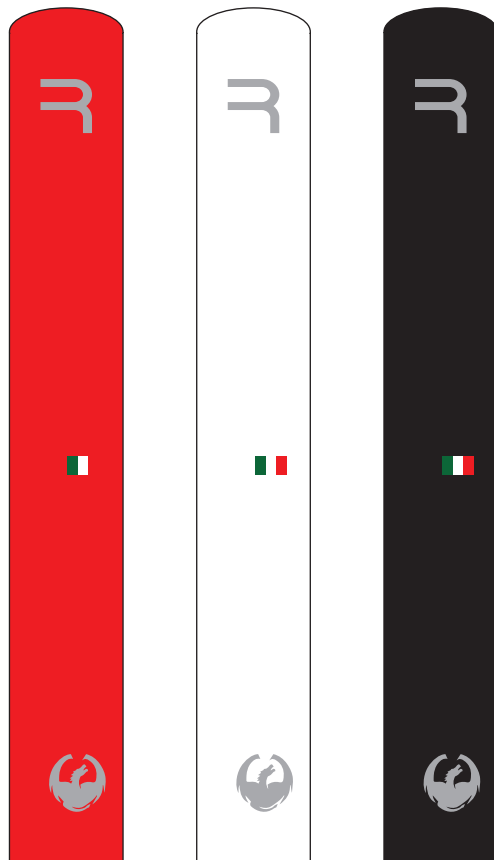

PRO MODEL LABÖCK

Woodcore sandwich construction
Titanal Layers
Laminated strips of wood
Triax-Glassfiber-Layers
Nano Carbon Base speed 9000
Topsheet in PVC-silk screened from the base
Reverse camber nose and tail
Flex optimized for racing and carving
Inserts: 4x2 and UPM

DRAGON LINE

Woodcore sandwich construction
Titanal Layers
Laminated strips of wood
Triax-Glassfiber-Layers
Nano Carbon Base speed 9000
Topsheet in base material-black,white or red
Reverse camber nose and tail
Flex optimized for racing and carving
Inserts: 4x2 and UPM

FULL CARVE

Woodcore sandwich construction
Laminated strips of wood
Triax-Glassfiber-Layers
Nano Carbon Base speed 9000
Topsheet in PVC-silk screened from the base
Reverse camber nose and tail
Flex optimized for racing and carving
Inserts: 4x2 and UPM

SBX

Woodcore sandwich construction
Titanal Layers
Laminated strips of wood
Triax-Glassfiber-Layers
Nano Carbon Base speed 9000
Topsheet in PVC
Reverse camber nose and tail
Flex optimized for SBX and free carving
Inserts: 4x2 and UPM on request

FISH

Woodcore sandwich construction
Titanal Layers
Laminated strips of wood
Triax-Glassfiber-Layers
Nano Carbon Base speed 9000
Topsheet in base material-Black or White
Reverse camber nose and tail
Flex optimized for powder and freeride
Inserts: 4x2
